

**ELIZABETH S. DODDS ASHLEY,  
PHARM.D, MHS, FCCP, BCPS**

Associate Director of Clinical Pharmacy Service  
Department of Pharmacy at the University of Rochester Medical Center  
Rochester, NY

Dr. Elizabeth Dodds Ashley is the Associate Director of Clinical Pharmacy Services, Department of Pharmacy at the University of Rochester Medical Center in Rochester, NY. She is also Instructor of Medicine at the School of Medicine and Dentistry, University of Rochester; Adjunct Associate Professor of Pharmacy Practice at the School of Pharmacy and Pharmaceutical Sciences, University of Buffalo, Buffalo, NY; and Adjunct Assistant Professor at the Department of Medicine, Division of Infectious Diseases and International Health, Duke University Medical Center in Durham, NC.

Dr. Dodds Ashley received her Doctor of Pharmacy from Bouvé College of Pharmacy and Health Sciences at Northeastern University in Boston, Massachusetts. She completed a pharmacy practice residency at Duke University Medical Center and a specialty residency in infectious diseases, internal medicine, and academics in a combined program with Duke University Medical Center and Campbell University School of Pharmacy.

Dr. Dodds Ashley currently serves as a reviewer for *Pharmacotherapy* and *Annals of Pharmacotherapy* and sits on the Editorial Board of *Infectious Disease News*. Her research has appeared in journals such as *Pharmacotherapy*, *Journal of Pharmacy Practice*, *Current Opinion in Pharmacotherapy*, and *Transplantation*. Her main area of research interest is the treatment and prevention of invasive fungal infections, specifically in transplant populations. In 2003, she received the Abbott Research Award from the Society of Infectious Diseases Pharmacists to further her studies of aerosolized amphotericin B lipid complex as antifungal prophylaxis, and she was named Preceptor of the Year at both Campbell University and Duke University. Dr. Dodds Ashley is professionally affiliated with the American College of Clinical Pharmacists and Society of Infectious Diseases Pharmacists.
