

Thomas J. Walsh, MD, PhD (hon), FCCP, FAAM, FIDSA

Director, Transplantation-Oncology Infectious Diseases Program
Chief, Infectious Diseases Translational Research Laboratory
Professor of Medicine, Pediatrics, and Microbiology & Immunology
Weill Cornell Medical Center
New York, NY

Dr. Thomas J. Walsh is Director of the Transplantation-Oncology Infectious Diseases Program in the Division of Infectious Diseases of the Department of Medicine at New York-Presbyterian Hospital/Weill Cornell Medical Center in New York, NY. He is a Professor of Medicine, Microbiology, Immunology and Pediatrics at Cornell University. Dr. Walsh directs a combined laboratory and clinical translational research program that is dedicated to the investigation of the antifungal pharmacology and chemotherapeutics, augmentation of host defenses, and molecular detection of invasive fungal infections in immunocompromised children and adults with cancer, stem cell transplantation, and other immunodeficiencies.

Dr. Walsh received his medical degree from the Johns Hopkins University School of Medicine in Baltimore, Maryland. During the next ten years, he completed his post-doctoral training with fellowships in pathology, infectious diseases, and medical oncology with a central research focus on medical mycology. He was the first recipient of the Janssen Medical Mycology Fellowship from the National Foundation for Infectious Diseases. Dr. Walsh is board certified in Medicine, Infectious Diseases, and Oncology.

His professional memberships include Councilor of the International Immunocompromised Host Society (ICHS), Co-Chair of the ICHS Medical Mycology Training Initiative, President-elect of the Medical Mycology Society of the Americas, Risk Group I Chair of the Bacteriology and Mycology Study Group, and Chair of the NCI Animal Care and Use Committee. The recipient of numerous awards for his teaching and mentoring, laboratory investigations, and clinical research, Dr. Walsh has written extensively in the areas of diagnosis, pharmacology, *Aspergillus*, *Candida*, and selected emerging fungal pathogens and serves as reviewer or member of the editorial board of many leading journals. Dr. Walsh has trained and mentored more than 70 research fellows and students from 16 different countries.
