

Brett Heintz, PharmD, BCPS-ID

Assistant Professor of Clinical Pharmacy
UC San Francisco School of Pharmacy
Infectious Disease Clinical Pharmacist
UC Davis Medical Center
San Francisco, California

Brett H. Heintz, PharmD, BCPS-ID, AAHIVE received his doctorate in pharmacy from the University of California, San Francisco (UCSF) and completed his residencies in pharmacy practice and infectious diseases at the University of California, Davis Medical Center (UCDMC) in Sacramento. He is a board certified pharmacotherapy specialist with added qualifications in infectious diseases and American Academy of HIV expert certification.

Dr. Heintz currently holds an academic position as Assistant Professor of Clinical Pharmacy at UCSF School of Pharmacy in the Department of Clinical Pharmacy with a clinical practice at UCDMC. As a clinical specialist at UCDMC, he provides clinical services and precepts in the areas of infectious diseases pharmacotherapy, antimicrobial stewardship, outpatient parenteral antimicrobial therapy and general medicine.

Dr. Heintz's primary research interests include antimicrobial dosing in renal failure, management of outpatient delivery of antimicrobial therapy, impact of antimicrobial stewardship and formulary management on antimicrobial resistance trends and patient outcomes, and determination of predictors of resistance, treatment failure and toxicity of antistaphylococcal and antipseudomonal agents.

Dr. Heintz has authored articles and book chapters related to antimicrobial therapy and presented numerous presentations and posters at local, state and national level meetings. He is the recipient of several teaching awards; is an active lecturer at UCSF School of Pharmacy and UC Davis Schools of Medicine and Nursing; and is involved in several research projects in the areas of infectious diseases, critical care medicine, and pharmacokinetics/pharmacodynamics.
